## About Me

A Senior Full Stack Web Developer with over 6 years of global IT industry experience, contributing to 100+ web projects across Australia, New Zealand, the USA, the UK, the UAE, Sri Lanka, and Kyrgyzstan. Skilled in HTML5, CSS3, JavaScript, jQuery, PHP, Go, WordPress, React.js, HUGO, HubL, and HubSpot, with expertise in SEO, web optimization, digital marketing, and responsive web development. Known for delivering high-performance, user-focused solutions with meticulous attention to detail and a passion for problem-solving.

## Work Experience

### Senior Full Stack Engineer

2022 – Present

#### Adventus.io Australia / Sri Lanka

Through its platform for student recruitment, Adventus.io aims to transform international education access through a B2B startup based in Australia. In my position as a Senior Full Stack Engineer in the Marketing team, I developed and managed the website, landing pages, and web tools to gain more leads and make them easy to use for other team members.

### Web Developer

2021 – 2022

#### Surge Global Sri Lanka

Surge Global is a Product Engineering & Growth Marketing agency based in Sri Lanka. I directly worked with the web & designing teams to build websites for businesses across the globe using many frameworks and tools.

### Junior Software Engineer

2019 – 2021

#### Attractor Solutions Australia + Duran IT Pvt Ltd Sri Lanka

Duran IT and Attractor Solutions collaborated to develop websites, digital marketing, and CRM solutions for hundreds of Australian & New Zealand businesses. As a member of the team, I contributed to the development, maintenance, and optimization of a number of websites.

## Projects

<https://alphaamltraining.com>

Senior WordPress Developer - Associated with Helppli LLC

- Integrated Thinkific LMS with the Alpha AML site using a custom Thinkific Enrolments Pro plugin, enabling automated course enrollments via WooCommerce. Implemented API integrations for user authentication, subscription management, and workflow automation, enhancing platform efficiency and user experience.

<https://adventus.io>

<https://adventus.io/premium-partners>

Senior Full Stack Developer - Associated with Adventus.io

- Developed the adventus.io Main website and the Premium Partners microsite's (Archive & Single) backend using PHP, GCP, Big Query, Google Sheets API, & frontend using jQuery, AJAX, and CSS from start to finish to connect our internal platform to the marketing website using the above technologies to automate repetitive work.

<https://showcase.adventus.io/ulgsc>

Front-End Developer - Associated with Adventus.io

- Developed a template to automate 80+ landing pages like above using Go Language as the backend and the frontend using jQuery, CSS3, and HTML5 on the HUGO framework
